

ENSURING A SMOOTH EVENT

We strongly recommended picking wines ahead of time.

Selecting wines is similar to selecting your menu for a large group. By picking your wines ahead of time it enables you to maximize engagement with your guests by reducing the time flicking through 120 pages of our main wine list.

This also allows the beverage team to have everything requested ready for the start of your event which will ensure a smoother service.

The aim of a function wine list is to appeal to the vast majority of your guests with the smallest amount of wines on offer. An example of this would be to pick a lighter and a heavier style of red, as opposed to two selections of Barossa Shiraz.

We shall limit the amount of wines selected to two white and two reds. If more are selected guests will latch onto one or two wines and the remainder could be opened with only one glass having being drunk. If the selections aren't suitable for a particular guest on the night there is always the option of having something by the glass. This will end up being more economical than being charged for a full bottle with only one glass having been consumed.

If a wine focused evening is what is required, this can be negotiated with the head sommelier.

Please remember, we are at your disposal in regards to your event. If this reduced list does not meet your requirements and you would like to access our full list, we are happy to discuss and organize your event with your wine preferences.

Due to vintage changes, supply issues and time limitations any item, vintage or price within this function wine list is subject to change at any time, without prior notice.
